COMPUTER SCIENCE ENGINEERING STUDENT

BABIN BID

ABOUT

Innovative and forward-thinking B.Tech Computer Science and Engineering student at Adamas University, passionate about leveraging technology to solve real-world problems. My interests span Artificial Intelligence, Machine Learning, Data Science, and Quantum Computing. I enjoy exploring futuristic technologies like Edge Computing, Quantum Physics, and UI/UX Design, while continuously improving my full-stack development skills.

LANGUAGE

Bengali	Native
Hindi	Fluent
English	Proficient

EXPERTISE

Skill No.1 - Problem Solving & Decision Making

Skill No.2 - Adaptability and Quick Learning

Skill No.3 - Team Collaboration and Leadership

Skill No.4 - Creative & Innovative Mindset

Skill No.5 - Time Management and Focus

EDUCATION

UTTARPARA MODEL SCHOOL (H.S.)

2015 - 2023

10-th and 12-th Board
Marks: 625 / 700 (10-th) | 407 / 500 (12-th)

ADAMAS UNIVERSITY, KOLKATA

2023 - 2027

Bachelor of Computer Science & Engineering

PROFESSIONAL DEVELOPMENT

RESEARCH PAPER PRESENTER

November 2025

SSWC'2025 at JIS University, West Bengal, India

Paper: **ML-Based Price Prediction for Agri-Horticultural Commodities**

AWS COURSES

January 2026 to March 2026

Virtual Technical Courses offered by AWS

Topics included **Cloud Data, Pipeline, ML, NLP, GenAI**

VIRTUAL INTERNSHIP

June 2025 to December 2025

The Developers Arena

A 6 months virtual internship program

HACKATHONS

2024 to 2026

Participated in SIH 2024 & 2025 | OSSDC CODE FOR CHANGE | Various Online Hackathons through Unstop, Hack2Skill, etc.

ACHIEVEMENTS & CERTIFICATIONS

BEST PAPER AWARD (SSWC'2025)

November 2025

Issued by JIS University

Recognized among 50+ papers for presenting research on ML-Based Price Prediction for Agri-Horticultural Commodities at the 2nd International Conference on **Smart Systems & Wireless Communication**.

MERIT SCHOLARSHIP

December 2025

Issued by ADAMAS University

Honored to receive the ***Merit Scholarship Award 2023*** from Adamas University in recognition of my academic excellence and consistent performance.

BABIN BID

PROJECTS

CargoConnect — June 2025 – February 2026

A user-friendly web application designed to help users book suitable vehicles for transferring heavy luggage from one location to another with ease and reliability.

Technologies Used: *JavaScript, HTML, TypeScript*

AquaWatch — September 2025 – October 2025

AquaWatch is a comprehensive web application that provides real-time monitoring and analysis of India's water crisis across all states and union territories.
The platform offers critical insights into groundwater depletion, water availability, and population impact through an intuitive dashboard.

Technologies Used: *TypeScript, Python, JavaScript*

EchoMind — December 2025 – March 2026

AI-powered voice assistant that runs entirely from the terminal. It listens for my spoken commands, intelligently routes them to focused handler modules, and uses dual-provider AI support (Google Gemini and Groq) to answer anything that isn't handled locally.

Technologies Used: *Core Python*

TrainGo — October 2025 – March 2026

TrainGo is a professional-grade train booking web application directly engineered for West Bengal's railway network. It features a Three.js-powered 3D cinematic hero experience, parallax scrolling, smooth page transitions, real-time seat selection, PDF ticket generation, and a fully responsive design system.

Technologies Used: *JavaScript, CSS, HTML*

SkyCast AI — December 2025 – January 2026

SkyCast AI fetches real-time weather and forecast data, visualizes trends, and can be extended with AI-driven insights and alerts.

Technologies Used: *Python*
